Supervisor: Weiwei Chen

I study how groups can reason and make decisions when agents provide incomplete, conflicting, or changing information.

Social Network

Social Choice

Argumentation

Profile

I am a third-year master's student at the Institute of Logic and Cognition and Department of Philosophy, Sun Yat-sen University, supervised by Weiwei Chen. My undergraduate major was Mathematics and Applied Mathematics, with a primary research focus on graph theory.

My research asks how groups can reason and make decisions when different agents provide partial, conflicting, or changing information. I study this through two connected layers: agents and their social relations, and arguments and their attack or support relations. I am especially interested in how these collective structures can be aggregated, revised, repaired, or learned from distributed observations.

Research Interests

- Computational social choice and collective decision-making.
- Formal argumentation, including attack and support relations.
- Social networks, aggregation, revision, repair, and learning from distributed observations.

Publications

1. **External Semantics for Argumentation Frameworks.**
Yutong Yi and Weiwei Chen. Proceedings of the 11th International Conference on Computational Models of Argument, IOS Press, 2026, vol. 482, pp. 351–362.
2. **Towards an Abstract Argumentation Approach to Bipolar Social Networks.**
Yutong Yi. Online Handbook of Argumentation for AI, vol. 6.

Talks

1. **External Semantics for Argumentation Frameworks.**
The 11th International Conference on Computational Models of Argument (COMMA), 2026.
2. **Social Network Aggregation Beyond Preservation.**
The 10th Women in Logic Workshop (WIL), 2026.
3. **Social Network Aggregation.**
The 2nd Bridging Logic, Epistemology, and Social Sciences (BLESS), 2025.

Awards

- | | |
|------|--|
| 2025 | Best Young Scholar Contribution, the Bridging Logic, Epistemology, and Social Sciences (BLESS) Conference Committee. |
| 2025 | National Scholarship, the Office of the Academic Degrees Committee of the State Council, China. |
